Standard editor

The following is the standard editor configuration provided with the standard option in the download page.

Apollo 11

Apollo 11 was the spaceflight that landed the first humans, Americans [Neil Armstrong](#) and [Buzz Aldrin](#), on the Moon on July 20, 1969, at 20:18 UTC. Armstrong became the first to step onto the lunar surface 5 hours later on July 21 at 02:56 UTC.

Armstrong spent about ~~two and a half~~ two and a half hours outside the spacecraft, Aldrin slightly less; and together they collected 47.5 pounds (21.5 kg) of lunar material for return to Earth. A third member of the mission, [Michael Collins](#), piloted the [command](#) spacecraft alone in lunar orbit until Armstrong and Aldrin returned to it for the trip back to Earth.
